NeoX Coin (NXC) – Whitepaper

Version 1.1 · Last updated: 10 November 2025

1. Abstract

NeoX Coin (NXC) is a community-driven utility token on Base Mainnet that powers the NeoX ecosystem of NFTs, digital art, casual gaming, and metaverse-style exhibitions. Instead of focusing purely on speculation, NeoX aims to make Web3 feel artistic, playful, and approachable for a global audience.

2. Vision & Motivation

NeoX is built around four core principles:

• **Art-first** – highlight digital art and curation instead of pure speculation.

• **Fair access** – no presale or private sale; launched as a community-first token.

• **Multi-format experiences** – support static art, animation, music, and simple games under one brand.

• **Global accessibility** – leverage Base Mainnet for low fees and pair it with multi-language documentation.

3. Technology Stack

• **Blockchain:** Base Mainnet (Ethereum Layer 2)

• **Token Standard:** ERC-20

• **Contract Address:** 0x9C17fDa33CBEe4aE3768252Fd62156034F42B40B

• **Explorer (BaseScan):**
https://basescan.org/token/0x9C17fDa33CBEe4aE3768252Fd62156034F42B40B

NeoX uses standardized contract implementations and deployment tooling provided by thirdweb to reduce technical risk and simplify configuration.

4. Token Design

NXC is designed as a straightforward, transparent token:

• No rebasing, reflection or complex mechanics.

• No presale or private sale – fair community launch.

• Supply is fixed at deployment; no additional minting is intended.

• Admin controls are limited to standard configuration and security parameters.

The on-chain contract on BaseScan should be treated as the single source of technical truth.

5. NXC Utility in the NeoX Ecosystem

NXC acts as the core utility token for multiple areas within NeoX:

- **NFT ecosystem:** Used for future drops, collector rewards, and access to limited editions.
- **Gamified experiences:** Integration with "NeoX Catch the Coins" and other web-based games for special modes and rewards.
- **Metaverse exhibitions:** Used for virtual galleries, access passes, or interactive elements in the NeoX metaverse.
- **Community events:** Applied in art challenges, raffles, and collaboration rewards.

6. Ecosystem Components

NeoX currently includes:

- NFT Collections – Timekeeper Edition, Van Gogh Visions, Abstract Realms, and more.
- Web experiences – interactive landing pages and micro-games themed around NeoX.
- Metaverse exhibitions – OnCyber-based immersive galleries and 3D rooms.
- Official wallet – 0x2B15d8f1D634a84ACb33Fc2519acE3d13bD72BD2.

7. Roadmap (Summary)

- **Phase 1:** Deploy NXC, launch first NFT collections, establish branding.
- **Phase 2:** Expand games and interactive experiences.
- **Phase 3:** Integrate NXC into NFT mints, community utilities, and events.
- **Phase 4:** Global artist collaborations and cross-project partnerships.

8. Risks & Disclaimer

Participation in blockchain projects carries risk. NXC is not a financial product or guaranteed investment. Users should do their own research (DYOR). Regulatory conditions and market factors may change. This whitepaper does not constitute legal or financial advice.
